WORK EXPERIENCE

Managed customer orders

Jan 2024 - Apr 2024

Flipkart India

Wishmaster

Managed customer orders and ensured timely delivery of products, maintaining high levels of customer satisfaction. Assisted in inventory management and order processing, ensuring the accuracy of product availability and delivery timelines. Coordinated with logistics teams to resolve delivery issues, ensuring a smooth customer experience. Optimized delivery routes and processes to improve efficiency, contributing to a 10% reduction in delivery time. Provided excellent customer service, handling queries and complaints to maintain a positive brand image.

SKILLS

Frontend and Backend: HTML, CSS, JavaScript, React Js, Next Js, Node Js, Express, Mongo DB

Frameworks: React Js, Tailwind Css, Bootstrap

State Management Libraries: React-redux, redux-toolkit, Context-api

PROJECTS

E-commerce Website 🖸 Dec 2024 - Jan 2025

- A fully functional e-commerce platform designed for seamless product browsing, shopping, and user interaction.
- Modern navigation with an intuitive navbar linking Home, Products, and Cart pages.
- Advanced product page with search, category filtering, and dynamic product displays.
- Interactive cart system with dynamic quantity adjustments, real-time price updates, and streamlined checkout.

Outcomes:

Improved user engagement by 25% due to enhanced navigation and interactive features.

Reduced checkout time by 20%, improving conversion rates.

Tech Stack: ReactJS, Tailwind CSS, Redux, Web Accessibility, Cross-Browser Compatibility

Food Delivery System 🗹

Jan 2025 - Jan 2025

This project offers a streamlined food ordering experience, enabling users to browse, customize, and order meals with ease.

- User-Friendly Interface: Built with ReactJS and Tailwind CSS for a responsive design.
- Add to Cart: Users can add items, adjust quantities, and view dynamic pricing.
- Order History: Track and reorder past meals effortlessly.
- Admin Panel: Manage menus (add, update, delete items) via an intuitive dashboard.

Tech Stack:

- Frontend: ReactJS, Tailwind CSS
- Backend: Node.js, Express.js
- Database: MongoDB

Ideal for: Restaurants, cloud kitchens, and food startups seeking a personalized delivery solution.
